Experience a live, virtual reality simulation game!

We will do a VR based game with participating students. Due to the limited number of VR Headsets and time required for the game, we can offer 2 sessions (2 hours x 2 sessions). one in the morning from 10 - 12 PM. the other in the afternoon, from 2 PM to 4 PM. We need a room where students can play the VR game. The space should provide sufficient room so that VR players can freely move their hands without impediments.
