

The Rowlett Lecture Series

The Rowlett Lecture is the premier lecture associated with the Department of Architecture. The Rowlett lecture is hosted annually by the CRS Center <<http://archone.tamu.edu/crs/>> for Leadership and Management in the Design and Construction Industry at the Texas A&M College of Architecture. Since the last site visit in the Spring of 2008, the Rowlett lecture, oriented towards presenting the work of a firm rather than an individual, has brought six firms to campus for the prestigious lecture.
